### Watch For Whitetails, Sheriff Cautions

Six whitetails were victims of car/deer accidents last week, prompting Crawford County Sheriff Joe White to warn all motorists to be on the lookout for them while motoring on area roads.

Five other personal damage accidents were reported last week as sheriff's deputies were busy investigating a total of 62 complaints during the period.

Deputies were called to quell ten disturbance complaints, eight larcenies and a like number of breaking and enterings occurred and four traffic complaints were recorded.

Other complaints included three malicious destruction of property incidents, two DUIL citations and a pair of unlawfully driving away automobile incidents. One harassment phone call was investigated, two personal injury accidents, an alarm call was checked and deputies provided general assistance on six occasions.

Grayling firemen were called to douse a blaze which broke out in a drained gasoline tank contractors were working on at Camp Grayling's vehicle repair facility at the airport.

According to Fire Chief Joe White, the fire broke out last Friday afternoon shortly after 4:00 p.m. and firemen spent about an hour at the scene.

They were assisted by a tanker sent by the Department of Natural Resources. No injuries were reported in the blaze.

# Political Races Head For Tuesday Showdown

by Joe Schrader

After weeks and months of wrangling in the political arena, the 1980 campaign heads for the homestretch as voters prepare to cast their ballots November 4th to decide the fate of this year's political aspirants.

Doors on Tuesday will open at 7:00 a.m. and close at 8:00 p.m. at the various polling places in Crawford County described later in this article.

A host of crucial issues will be decided on the national, state and local scenes, including three tax shift proposals which have drawn the attention of Michigan voters.

Crawford County voters will cast their ballots on two local millage questions, one (Proposition One) calling for a county increase to support senior citizen programs. The second (Proposition Two) involves a four-year hike in millage for Frederic residents in support of the township's fire protection program.

Following is a breakdown of the races in the county and townships, along with local propositions and tax proposal matters facing voters on Tuesday.

In the county, Prosecutor Alton T. Davis (D), will be opposed by John B. Huss (R), former office-holder, for the county's top law enforcement post. Sheriff Joseph P. White (D) is being challenged by Harold Hatfield (R), and Arthur F. Clough, a sticker/write-in candidate.

Incumbent County Clerk Leo E. Lovely (R) squares off against Glenn Sawyer (D) for the expanded County Clerk/Register of

Deeds post while Republic Joseph V. Wakeley is unopposed for the County Treasurer's job.

Norman F. Parker (R) and Bernard Maurer (D) are vying for an opening on the County Road Commission Board. All of the above are for four-year terms.

The following state and national offices will be decided on Tuesday: Incumbent Republican Robert Davis faces the challenge of Democrat Daniel Dorrity in the contest for U.S. Congressman in the 11th Congressional District while voters in Beaver Creek Township will decide between incumbent Donald Albosta (D) and his challenger, Richard J. Allen (R) for the congressional seat in the 10th District.

103rd District State Representative Ralph Ostling (R) is opposed this year by Democratic challenger, William Brauker.

Also appearing on the Tuesday ballot will be candidates for the Michigan State University Board of Trustees, Board of Governors for Wayne State University, University of Michigan Board of Regents, members of the State Board of Education, State Supreme Court Justices and Judges of the Court of Appeals for the 3rd District.

The following proposals will also face Michigan voters on Tuesday, shown here in alphabetical order:

**PROPOSAL A**—State Property Tax Relief Proposal commonly called Smith-Bullard.

**PROPOSAL B**—Amendment to reduce legal drinking age from 21 to 19 years of age.

**PROPOSAL C**—Property Tax Relief Proposal supported by Gov. William G. Milliken.

**PROPOSAL D**—Property Tax Amendment more commonly called Tisch Proposal.

**PROPOSAL E**—5-year State Income Tax increase to reavamp the state's prison & correctional systems.

**PROPOSAL G**—To allow the Legislature to pass laws relating to their exemption from civil arrests during sessions.

**PROPOSAL H**—To restrict the authority of the Lieutenant Governor and set up a procedure to fill the office in event of vacancy.

Following is the exact text of the two millage proposals for all county voters in the case of Proposition One and Frederic Township voters only on Proposition Two:

#### PROPOSITION ONE

**CRAWFORD COUNTY**—Shall the Board of Commissioners levy 1/2 Mill on State Equalized Valuation for four years 1981-1984 inclusive for Social, legal, health, educational, emotional, nutritional, recreational, escort and mobility status of older persons as provided by 1976 Public Act 39.

#### PROPOSITION TWO

**FREDERIC TOWNSHIP**—Shall the tax rate be increased by Two Mills for four years 1981-1984 inclusive for purpose of housing, maintenance, purchase of equipment and operation of the Frederic Township Fire Department.

## The Day of Decision For The Seniors!

by Harrison Goodhue

This is the last of the articles about the Senior Citizens Center, for next Tuesday, November 4th, the voters of Crawford County will decide the future of our Seniors!

Their vote-YOUR vote-will determine whether there will be a healthy, functioning Senior Citizens Center, like now, to continue to add joy and bring happiness to THEIR- and YOUR-Parents and Grandparents lives-and to THEIR and YOUR lives-if they are lucky enough to live to become a Senior Citizen!

After reading over again what has been reported here on the pages of The Avalanche over the last three months on the great "good" being accomplished by the Center, it doesn't seem possible that the responsible Citizens of Crawford County will fail their Parents and Grandparents! But, if they do, they will be failing themselves as well!

It will be THEIR future-YOUR future-which will be bleak and lonely as well if the Center does not survive!

Surely, those who gave us our lives are worth the few dollars

per year the half mill tax increase will amount to for the average taxpayer! Surely, our Parents and Grandparents joy and happiness is worth more than a few six packs of beer per year!

The Seniors are counting on you to Vote November 4th, and to vote "Yes" on County Proposition One, to assure continuation of their Senior Citizens Center as a lively and vigorous source of companionship, joy, and meaningfulness to add to their lives!

PLEASE! DON'T LET THEM DOWN!

The Grayling Vikings cast aside the frustration of five straight losses Friday night, exploding for two quick first quarter touchdowns that propelled them to a 25-0 league win over the Rogers City Hurons.

## Appeal Heart Lake Transfer Decision

by Jon Thompson

Gaylord—A Heart Lake couple, Michael and Connie Victor, have filed an appeal to the state Board of Education to overrule an intermediate school board decision not to allow a transfer of property from the Crawford-Ausable School District to the Gaylord Community School District.

The appeal was filed October 8 after a petition for the property transfer, signed by 69 Heart Lake property owners, was denied by the Crawford-Oscoda-Ogemaw-Roscommon (COOR) and Cheboygan-Otsego-Presque Isle (C.O.P.) Intermediate School Boards at a special hearing October 1.

Intermediate School Board members voted against the transfer request because no students would change schools, yet Crawford-Ausable would

lose about \$25,000 a year in revenue from taxes on the property. Additionally, some School Board members voted against the request because more school district islands would be created.

Connie Victor said her appeal is based on the wording of the proposal to deny the property transfer which stated "no students were involved."

"What do they think my three children are?" she asked. Her three children currently attend Gaylord St. Mary's.

The Heart Lake property owners asked for the property transfer because they identify more with Gaylord, which is seven miles closer to Heart Lake than Grayling is. A hearing date for the appeal has not been scheduled yet.

## Won't You Do Your Share?

Tomorrow is the last day of October and the end of this year's Red Cross Fund Drive.

That does not mean that if you have not yet sent in your contribution it is too late to do so! Never have such a thought! Contributions are ALWAYS

welcome and gratefully accepted!

It does mean, though, that this is the last of the articles in The Avalanche explaining what Red Cross REALLY is; WHY it's vital humanitarian services are so valuable to the people of this Community; and why it is ONLY FAIR that everyone carry their share of the cost of making sure Service to Military Families and Veterans, Disaster Relief, Blood Services and Safety Training will continue in Crawford County.

There are three ways you can assure continuance of these Red Cross Services: One way is to be a Blood Donor, and Crawford County has over 500 wonderful, faithful Blood Donors to whom every Citizen should be deeply

## **Crawford County's Prosecuting Attorney**

# **Alton T. DAVIS**

### **To the Citizens of Crawford County:**

I have tried to be candid with you during this campaign, as I strive to do in our day to day encounters and dealings.

I believe that you expect something more than slogans or the mere repetitious appearance of a name upon which to base your decision on how to cast your vote.

I've laid out my record as Prosecutor over the past four years for your review. I'm proud of that record which shows:

- **Convictions have increased across the Board**
- **A saving and return to this County of more than \$43,000 of tax dollars over the past four years**
- **An expansion of legal services to other officials and citizens of this community**
- **Professional, efficient and fiscally responsible administration of the Prosecutor's office**

My case has now been presented to the best of my ability to do so while continuing with my work load. You must now make your decision.

As you retire to deliberate on how you will cast your vote, please remember that no one pleads guilty because they want to; money isn't earned or saved without effort and you as citizens of this County have a right to expect courteous and fair treatment from your public representatives.

It has been my pleasure to have been of service to you and I will accept your decision, whatever it is, in good spirits.

I wish you all well.

## From Our Corner ...

We were asked a number of times last week if we were going to take a stand on any of the state tax proposals, especially the Tisch proposal...our answer was negative and stated as we did in last week's corner that we hadn't decided ourselves on how we would vote...and couldn't see how we could come out and tell someone else how to cast their ballot.

We are still in the dark and will probably go right up to election day before we decide...after last week's issue was out we noticed something that we should have done...this is like closing the door after the horse is out, anyway we ran the synopsis how the state tax proposals would appear on the ballot, what we forgot to do was label them as to who they belong to...so we will do that this week...

PROPOSAL A—State Property Tax Relief Proposal commonly called Smith-Bullard.

PROPOSAL B—Amendment to reduce legal drinking age from 21 to 19 years of age.

PROPOSAL C—Property Tax Relief Proposal supported by Gov. William G. Milliken.

PROPOSAL D—Property Tax Amendment more commonly called the Tisch Amendment.

PROPOSAL E—5-year State Income Tax increase to revamp state's prisons and correctional system.

PROPOSAL G—To allow the Legislature to pass laws relating to their exemption from civil arrests during session.

PROPOSAL H—To restrict the authority of the Lieutenant Governor and set up a procedure to fill the office in event of vacancy.

We mentioned above we were not taking a stand on any of the proposals, we are however taking a stand on Crawford County Proposition One...that to levy 1/2 mill to help out our Senior Citizens' to keep their activities as they are now and the 1/2 mill is the remedy to do so...we're going to vote yes and urge others to do so as well...we don't believe there is a center in the whole country that is so active for Senior Citizens as this one...Vote Yes...

The wording appears on the ballot as such...

### PROPOSITION ONE

CRAWFORD COUNTY—Shall the Board of Commissioners levy 1/2 Mill on State Equalized Valuation for four years 1981-1984 inclusive for Social, legal, health, educational, emotional, nutritional, recreational, escort and mobility status of older persons as provided by 1976 Public Act. 39.

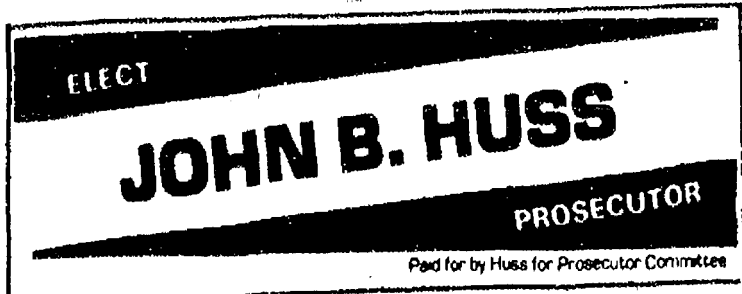

All we can say here is think over your candidates and the proposals before you go into the voting booth so you don't come away wondering if you voted the way you wanted...it is your privilege to vote...use it next Tuesday, Nov. 4th...

Our little remark last week about having a clearing house for activities that go on in our little hamlet brought remarks from four different persons...we heard that we made Howard Taylor's morning radio show and he mentioned, so they tell me, that he has offered to keep a calendar through the Community School office...others who called thought the Chamber office would be a good one...John Sojka called and said he had tried to get something going like this when he was president of the Rotary Club...any way there they are, Grayling is becoming a big city and should have something like this so there wouldn't be any conflict of dates for the different functions...

We understand our friend John Morrill, watch dog of the north for the Bay City Times will be taking on new duties...seems as how the Times is looking for more coverage in the north and they are putting in a satellite office in West Branch and John will be the manager of the new facility to open sometime in November...that kind of free advertisement should be worth a couple orange pops, John...

We heard a cute joke the other day and thought we'd pass it on...seems like there was a minister that came in to town and stopped at a gas station and asked a small boy how to get to the post office...the boy directed him, and the minister thanked him and told the boy he should come to church that Sunday and he would show him the way to heaven...the little boy said no way, you can't find your way to the post office, how are you going to show me the way to heaven...

With that little tid bit we are going to close this turkey for another week...one final reminder...Vote as if your life depended on it...because it does...

## The Bible Speaks

From Calvary Baptist Church

### THE OCCULT Part 2

Last week we studied a small part of the occult by identifying some of the activities associated with fortune-telling. Now we shall look at Spiritism. It is called Necromancy in Deuteronomy 18:11, and speaks of Spirit communication. Some well-known forms of Spiritism include table lifting, glass moving, materialization, levitation, spiritistic cults and spiritualism.

Spiritism can be found in many forms throughout the world. Some Christians are fooled by demon-controlled spiritist mediums like Edgar Cayce. Some Christians are not able to discern between the power of God in the Holy Spirit and the power of demons. Many scientific tests have been conducted in leading Universities to prove beyond a shadow of a doubt the existence of supernatural powers in some people.

The Kardec spiritist are responsible for building schools, hospitals and other such institutions. On the other hand, the Brazilian Macumba cult shows no restraint in the practice of the worst kind of evil imaginable. It is not always possible to identify a spiritist group by their degree of "goodness" or "badness".

Perhaps the most dangerous group of Spiritist in the United States today is organized and listed as a church, the National Spiritualist Association. Other "religious" groups include: The International General Assembly of Spiritualists; The National Spiritual Alliance of the U.S.A.; The National Spiritualist Association of Churches; and The Progressive Spiritual Church.

The great appeal of these "churches" is to those who have suffered a terrible loss of a close loved one. By the use of demons, people are able to carry on a conversation which they believe to be real, with a departed loved one. In reality, they are talking to demons who are imitating a dead person.

The worst thing about Spiritists is not their involvement with demons, but their denial of all the cardinal doctrines of the Christian Faith. They deny the deity of Jesus Christ, making him a medium controlled by the spirits of Moses and Elias. They reject the death, burial and resurrection of Jesus Christ for sin and sinners. They reject the clear teachings of the Bible on the subject of Spiritism. They use instead of the Bible the Spiritualist Manual. They stress words like Infinite Intelligence instead of God. They speak of Nature and Nature's natural and spiritual laws. They teach love, the Golden Rule and Reformation instead of man's salvation through Jesus Christ. (adv.)

### by Warren M. Hoyt Benefits From Tisch Amendment To Be Lost To Income Taxes

Up to 50 percent of the property tax cut benefits to individuals and up to 46 percent of benefits to businesses that would be provided under the Tisch tax cut amendment (Proposal D) would be lost to U.S. income taxes, according to a report by the Senate Fiscal Agency.

Further the report said expectations will fall short that there will be a boost in economic activity due to the shift of \$2.4 billion from state and local government revenue to the private sector.

The report noted the Tisch amendment would provide impressive, direct reductions in property taxes, but said the true savings must be calculated after removing benefits under the current state circuit breaker program and adding U.S. income taxes for those losing credits under itemization.

The state circuit breaker concept provides credits against state income tax liability when property taxes reach a certain percentage of income.

The report said the most significant tax savings would be realized by taxpayers who do not itemize their deductions on their federal tax return, but instead take the standard deduction and those who do not currently qualify for the circuit breaker property tax credit.

The typical initial savings would range from 45-62 percent for general taxpayers, the report noted, while senior citizens with income of at least \$5,000 would save up to 91 percent.

But after deducting circuit breaker benefits and adding federal income taxes, the net benefit ranges from 3.8 percent to 38.6 percent, the report said. The report indicates homeowners would benefit under Tisch in the future due to the 2 percent limit on annual assessment increases.

But it also declared that circuit breaker benefits are expected to grow rapidly in the 1980's and those benefits would be lost.

For businesses, the report says all middle-to-large corporations showing a profit will lose 46 percent of the property tax savings to U.S. income taxes.

However, unincorporated businesses not paying corporate income taxes will realize the most significant net savings.

In cautioning against an upswing in the state's economy, the report said individuals will probably use most of their retained income in consumption of durable goods, many of those made outside the state, and invest the rest, while businesses would lower prices, expand or pay dividends to shareholders.

Therefore, much of the savings would be exported from the state, the report said.

### Lottery Sales Top \$483 Million Last Year

According to preliminary, unaudited figures, the Bureau of State Lottery had more than \$483 million in sales while paying out \$238 million in prizes and contributed more than \$215 million to the state's general fund.

The figures represent a 17.7 percent increase in sales, an 18.9 percent growth in prizes awarded and a 21.3 percent increase in the contribution to the general fund compared to the previous fiscal year.

Since the lottery's beginning in 1972, accumulated lottery sales totals over \$2 billion, prizes are over \$1 billion and the general fund has benefited by \$940 million in additional revenues.

### Earns Marine Promotion

day at Petoskey against the on-again, off-again Northmen, 19-14 winners Friday over Gaylord.

Lucksted scored on a 31 yard scamper up the middle on the Vike's first possession, a drive aided by a 30 yard run by Ted Methner that carried Grayling into Huron territory. Brian Yoder connected on the PAT and Grayling was in front, 7-0.

The Vikes upped their lead to 13-0 moments later when Lucksted picked off a Huron pass to put Grayling on the offensive again. Bill Fairbotham cracked over from eight yards out to give the Vikes a commanding lead at the 4:48 mark of the opening period.

"It was a complete team effort," Klinger added about the performance, "a much-deserved win after the loss to St. Ignace." The coach lauded

the defensive unit whose tenacious play kept the Hurons off balance all night. Klinger said the front liners, Bill Fairbotham, Steve Allen, Roger Weatherly, Don Bancroft, Scott Dunkley, Chris Conklin, Bill Williams and Eric Chrisman effectively choked off the Huron ground game. Linebackers Craig Collen, Paul Brackenbury and Brad Trenary combined to jam up the middle, Klinger said, while the secondary of Terry Norman, Richard Lange, Lucksted, Jamey Radebaugh and Bill Roach stopped the Huron passing game.

The Vikes added two more TD's the second half to round out the scoring with Lucksted cracking over from a yard out for one score, Terry Norman hauled in a 59 yard scoring aerial from Juntilla in the third quarter for the second.

**TAGGING THE VIKES:** Grayling exploded for 371 yards against Rogers, 297 on the

ground. Ted Methner ran for 90 yards and Bill Fairbotham rushed for 56 behind Lucksted's game-leading 99...

Juntilla was two for three in the air for 74 yards, his bomb to Norman was his 8th TD toss of the year. Roach hauled in a 15 yarder for the second reception...

Klinger said the offensive line of Roger Weatherly, Craig Collen, Jay Schrader, Jack & Joel Money and Bob Heuther did a good job of opening holes for the running game...

Terry Norman picked off two Huron passes to lead the secondary, Dan Lucksted and Roger Weatherly both intercepted one apiece. Weatherly also covered a Huron fumble...

The defense in its best game of the year held Rogers City to 58 yards total offense, 34 on the ground and 24 in the air...

The JV squad traveled to Rogers City Thursday but came home on the short end of a 14-6 score.

## TO THE CUSTOMERS OF MICHIGAN CONSOLIDATED GAS COMPANY

(Published by Direction of the  
Michigan Public Service Commission)

## NOTICE OF HEARING ON IMPLEMENTATION OF OPERATION AND MAINTENANCE CONTROL BY INDEXING SYSTEM Case No. U-5955 (CPI—Nov. '80)

In its Opinion and Order dated November 6, 1979, in Case No. U-5955, this Commission established an Operation and Maintenance Expense Control By Indexing System for rate schedule customers of Michigan Consolidated Gas Company (Consolidated). That system authorizes an annual change in the portion of Consolidated's jurisdictional rates and charges attributable to certain operation and maintenance expenses, other than purchased gas and uncollectible gas accounts, in accordance with changes in the Consumer Price Index (CPI).

The Commission found in its Opinion and Order dated February 5, 1980, that a reasonable Operation and Maintenance Control By Indexing System base amount for use in determining the 1981 surcharge is \$137,027,000. The amount of the adjustment will be computed at the 1980 hearing and collected as follows:

(1) Determine the percentage change in the All Items, Wage Earners and Clerical Workers Revised, Unadjusted, National CPI between August 1 of the year prior to the November hearing year and August 1 of the hearing year. The 1980 hearing will determine the percent change in the CPI between August, 1979 and August, 1980.

(2) Calculate the allowable change in "other O&M" expense by multiplying the base amount by the percentage change in the All Items National CPI as determined in Step (1). The base amount plus the allowable change will be the new base amount for the next hearing, not the actual other O&M expense which Applicant may have. For the purpose of major rate cases, the base amount plus the total allowable changes will become a new base amount and be included as such in the rates.

(3) Calculate the allowable change per Mcf by dividing the allowable change determined in Step (2) by the 12-months' total jurisdictional gas sales of 441,444,495 Mcf as determined in Case No. U-5955. The total jurisdictional gas sales as determined in the latest rate case should be used in subsequent indexing hearings until a new figure is set in a new major rate case.

(4) The amount per Mcf in Step (3) should be applied to customers' bills for total jurisdictional gas sales, for 12 months starting with the January billing month following the November hearing.

Consolidated has requested that the Commission increase its commodity charges pursuant to the Operation and Maintenance Control By Indexing System by .394¢ per Ccf, or .387¢ per therm, for the 12 months beginning in January 1981. The annual bill for an average

residential heating customer using 175 Mcf would increase by about \$6.90 as a result of the proposed surcharge.

Consolidated has further requested that when the final order in its pending general rate case, Case No. U-6372 is issued, the .334¢ per Ccf, or .328¢ per therm, surcharge previously authorized on February 5, 1980, be cancelled and the additional surcharge authorized for 1981 be modified to reflect the sales volume found reasonable in Case No. U-6372. Consolidated stated that such modification is expected to have no material impact on the bills to its customers.

### NOTICE IS HEREBY GIVEN that:

A. A public hearing in this matter will be held at 9:30 a.m. on November 25, 1980 in the offices of the Commission, Mercantile Building, 6545 Mercantile Way, Lansing, Michigan, for the purpose of determining the percent increase in the CPI between August, 1979 and August, 1980, and the corresponding surcharge to be applied to all customers' bills as provided in the Commission's Opinion and Order dated November 6, 1979 in Case No. U-5955. Any interested persons may attend the hearing and participate, subject to the provisions of the Commission's Rules of Practice and Procedure.

B. Any person seeking to intervene, in accordance with Rule 11 of the Rules of Practice and Procedure before the Commission shall file with the Commission, on or before November 20, 1980, an original and 10 copies of a petition to intervene, together with proof of service upon Applicant.

Subparagraph (2) of said Rule 11 provides as follows: "(2) A petition to intervene shall set out clearly and concisely the facts supporting the petitioner's alleged right or interest, the grounds of the proposed intervention, and the position of the petitioner in the proceeding, so as fully and completely to advise the parties and the Commission of the specific issues of fact or law to be raised or controverted." (Emphasis added.)

The Commission will require strict compliance with the above quoted rule.

Jurisdiction in this matter is pursuant to 1909 PA 300, as amended, MCL 462.2 et seq.; Section 4 of 1919 PA 419, as amended, MCL 460.54; Sections 4, 6, 6a and 6b of 1939 PA 3, as amended, MCL 460.4, 460.6, 460.6a and 460.6b; Section 3 of 1923 PA 238, as amended, MCL 486.253; 1979 PA 306, as amended, MCL 24.201 et seq.; and the Commission's Rules of Practice and Procedure, 1954 Administrative Code, 1968 Annual Supplement, R 460.11 et seq.

Dated: October 21, 1980

## Senior Citizen Homemaker Service

Many of you are preparing your homes for the upcoming fall and winter season. We would like very much to help you with as many chores as we are allowed to do. Homemakers Service Programs goal is to service all of the homebound and handicapped citizens of Crawford County who are 60 years of age or older. We are still available regardless of the government financial cuts. Handicapped is defined as the inability to perform daily household tasks. There are no income requirements for this service, however we do accept donations, this will permit us to do more services for more people. We also have a suggested fee scale for your guidance and convenience.

If you need the Homemaker Service or know of someone that does please feel free to call the Senior Citizen Center at (348-9314). We have 5 Homemakers and a Gentleman Companion that are truly hard working, dedicated and dependable workers. The Homemakers do light housekeeping, dusting, vacuuming, meal preparation, washing dishes, light laundry, with occasional reading to clients, and escort service. Program emphasis though, is placed on performing light household tasks and transportation service is kept at a minimum. Howard Schmidt, companion, helps our homebound and handicapped in many ways. He even catches and fries fish for them.

I do hope that you are all registered and plan to vote for the very necessary Senior Citizen millage. As you know the Homemakers Program may become nonexistent without the passing of the millage. Keep the joy of living alive in our most valuable and deserving Senior Citizens.

Joyce Hankins  
Homemaker Coordinator

## Volunteers

Once again this year, we have  
many men and women involved  
in the Volunteer Aide Program  
in the Crawford AuSable  
Schools.

Parent involvement is one of  
the most important factors in a  
child's success in school.  
Schools need parent partici-  
pation, a share of time and  
talent, to supplement and  
enrich the education and oppor-  
tunities offered by the schools.  
You will find it is a rewarding  
experience.

Recently, vision tests were  
given at the Grayling and Fred-  
eric Elementary Schools and  
the Middle School. Volunteers  
who offered their help during  
the days of testing were: Marge  
Harwood, Hazel Koernke,  
Greta Moore, Tonni Laundre',  
Clara Phillips, Gayle Hunter,  
Colleen Wyss, Sally Mc-  
Namara, Diane Christman and  
Debra Lobsinger.

This is just one of the many  
services the volunteers perform  
for the schools. If you are inter-  
ested in becoming involved,  
please call Cheryl LaDuke at  
348-7641 ext. 52 for more infor-  
mation about the program.

### Local Lion Club Honors Members Mother

The Grayling Lions Club invited Lora Gould, Director of Crawford County Commission on Aging to their regular October dinner meeting as a guest.

During their meeting, President Don Hale presented Mrs. Gould with a check in the amount of \$200.00 in memory of Florence Steere, the mother of James Steere, a Lions Club member.

The monies are to be used wherever needed at the Senior Center.

Mrs. Steere was a real fun loving person and an active volunteer in all the Center's programs and the memorial in her name was most appreciated. James Steere, as well as Mrs. Gould attested to Florence's love and appreciation of the Center's programs.

### Need Help

The students of Grayling Elementary Schools are trying to raise money to help buy new playground equipment by selling decorative candles.

Won't you help them by buying one of these lovely candles. They are \$3.50 for the large one or \$3.25 for a smaller candle.

### Your Share

(Continued from Page 1) grateful!

Another way is to be a Volunteer Red Cross Worker and help do the work necessary to accomplish these services that Red Cross, AND ONLY RED CROSS, renders!

The third way is to support Red Cross financially and provide the money needed to achieve these Services!

Not everyone can give Blood, nor be a Volunteer, but EVERYONE can do their fair share of providing the money!

Your fair share may only be a dollar-or it may be hundreds of dollars-but the important thing is to DO YOUR FAIR SHARE!

Only 211 individuals or businesses supported Red Cross last year. That is less than one out of each twelve family units or households in the County; yet EVERY household-whether they contributed or not-is eligible for Disaster Relief if they become victims!

Shouldn't you contribute your fair share?

It isn't too late! Write a check now and send it to Crawford County Chapter/American Red Cross, RR 2, Box 2515, Grayling, Mi. 49738!

You'll feel better! And what is more, you'll be a GOOD NEIGHBOR!

We'd like all Auxiliary members to contribute items for the following tables: White Elephant, books, dishes, jewelry, plant slips, games, puzzles, craft & Christmas items, crocheted and knitted items, tree ornaments, baked goods, pastries, candies, breads and etc. A donation of \$1.00 will give you a chance to win a lovely hand made quilt, a pair of Mr. and Mrs. Snowmen, or a set of glasses.

Sloppy Joes will be sold throughout the day, also we'll be serving cookies and coffee. Let's all give this our support. Next meeting will be Nov. 6th, at 8:00 p.m.

A friendly reminder to parents and young goblins participating in Halloween activities would be:

1. All treats should be taken home for inspection before they are eaten.

2. Masks or material obstructing vision should be removed when crossing or being in vehicle traffic areas.

3. Costumes should be non-flammable material light in color for visibility.

4. Flashlights should be carried after dark, parents should attempt to have their little goblins escorted, and confined to their own neighborhood.

5. Goblins should approach residents having porch lights or similar indications of welcome displays.

6. Parents being aware of suspicious items brought home by young people should question where they were obtained, and immediately notify the local law enforcement authorities.

"Sportsmanship, spirit, and team competition", were just a few of the comments spoken by Grayling Varsity Football Coach Bill Klinger at the 2nd annual Grayling Rocket "Flag" Football League banquet, held recently at the High School.

Coach Klinger was the guest speaker at the Pot Luck banquet, which was attended by over 200 people, honoring the coaches, team sponsors and all the boys and girls that played on the teams.

The banquet began with a Walt Disney Movie, "Gus", a mule that kicks 100 yard field goals. After the movie, a supper was provided by the families, along with hot dogs, orange drink, and coffee, provided by McDonalds and Black and White Foodland.

After the supper, League Director Mike Shearer introduced Coach Klinger, who complimented the league for providing the youth of Grayling a constructive activity, as well as learning the fundamentals of football. The team coaches were then introduced as well as each member of the individual teams. All players received a Grayling Rocket Football Patch, and a free food card, courtesy of McDonalds of Grayling.

In concluding the banquet, Shearer thanked the coaches Bill Ellingboe, Gary Cowie, Howard Lehti, Ted Kortess, Steve Fick, Clay Horton and Cal Walls for devoting their time and effort in coaching the kids. In addition, appreciation was extended to the sponsors, who donated money to buy needed

equipment and uniforms: Mac's Drug Store, Ray's Canoes, Arrowhead Inn, AuSable Construction, Grayling Kiwanis, Northern National Bank, C.F. Fick & Sons, and the Grayling Jaycees. Jaycee Regional Director Mike Shearer also presented Certificates of Appreciation to the Crawford County Avalanche, WGRY radio and WQONradio, for their support in making the community aware of Rocket Football League.

A special Certificate of Merit was awarded to the Grayling Booster Club at their Banquet last week.

Special appreciation is extended to Mr. and Mrs. Tom Brooks, Mrs. Hazel Halstead, Mrs. Mary Partello, Mrs. Jackie Prieskorn, Mrs. Lillian Kitchen, Mr. and Mrs. "Doc" Cousins, and Joyce Miller for helping prepare the banquet tables.

### Noah's Ark Being Rebuilt

Pastor J. Richard Greene from Frostburg, Maryland will be speaking at the Grayling Assembly of God, 911 Elm St., Grayling, Mich. on Wednesday, November 5th at 7:00 p.m.

In the Spring of 1974, Richard Greene, Pastor, at that time, of a small Church of the Brethren in the mountains of Western Maryland, began to have nightly visits from God about the rebuilding of Noah's Ark on the land the congregation bought to build a new church along the interstate highways 48 & 36 outside of Frostburg.

Since that time, miraculous things have been happening on a continuous basis. The congregation of less than 70 persons voted to spend over one million dollars to rebuild Noah's Ark in place of the contemporary church building they had planned. The Lord has sent people and materials from all over the country to rebuild the Ark; including an architect and the world's largest earth moving company.

Pastor Greene has shared on national T.V., the 700 Club, the PTL Club, NBC Evening News, the Evening Magazine Program, as well as various newspapers, magazines, and other publications from England, West Germany, Australia, Israel, Canada, Africa, Finland and the United States. Pastor Greene has personally shared the Vision throughout America, England, West Germany, Israel, and Canada.

Come and hear this exciting testimony and see what God is allowing to happen on this hillside in Frostburg, Md.

### GHS Students To Present Summertree

Summertree, this fall's dramatic offering of the Grayling High School Players, tells the story of a young man who wants to be a concert pianist. However, circumstances beyond his control force him into the draft, and he is subsequently fatally wounded in Vietnam.

The demanding role of this nameless Young Man is being played by GHS junior Mark Hamilton, son of Bill and Phyllis Hamilton of Beaver Island Road. Hamilton brings to Summertree his experience gained in last year's three productions: The Mouse That Roared, Guys and Dolls, and The Night of January 16th, in which he created probably his most memorable role, that of the guilt-ridden Swedish accountant, Sigurd Jungquist. He also participated in the Kids' Theatre program the summer of 1977.

Yet these roles pale when considering the demands placed on Mark in Summertree. Director Nancy Lemmen estimates that he is on stage 75-80% of the play, which means that the success of the drama weighs heavily on his shoulders. According to Ms. Lemmen, Mark is excellent in the role, and a combination of his natural talent, hard work, and dedication to the play will lead to fine performances when Summertree plays to area audiences on Thursday, Friday, and Saturday, November 13, 14, and 15.

When not rehearsing or working at McDonald's Mark enjoys scuba diving, fly-tying, and model railroads. He is concentrating on mathematics and science courses at GHS, in the hope of becoming an architect.

Show times for the play are 8:00 p.m. each evening, in the Joseph Stripe Auditorium of Grayling High School. Tickets can be purchased at the door for \$2.00.

I try to be charitable when it comes to the way the post office is operating. I just call it mail menopause.

### Editor's Mailbox

Oct. 27, 1980

Dear Whitey:

For many years it has been my distinct pleasure to lose myself for a few minutes each week by getting comfortable and enjoying your literary efforts in "From Our Corner". Upon many occasions, I have discovered that often we have something in common, whether it be a gripe about the M72 railroad crossing or a bit of difficulty in "getting the turkey to hatch". But now you have hit a new high, you have written a paragraph to which I feel compelled to respond in writing.

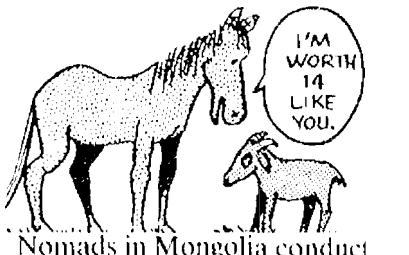

Recently you wrote of a complaint which you had received from a member of our community, requesting that some sort of community effort be made to coordinate the scheduling of community events so that no two are planned for the same evening, such as October 23 when one of our organizations scheduled a big event on the same evening that a travelogue was scheduled at the high school.

Several years ago, I became aware of this problem and at that time, I attempted to do something about it. My intention was to entice all of the community organizations into a cooperative effort of scheduling not only events, but regular meetings also. Our vehicle to be used to disseminate the information was a daily radio program which I host on a local station. A short questionnaire was devised which would have given us most of the needed information. This questionnaire was mailed to all the organizations we could identify here in our community. And then we waited...and waited...and waited. Needless to say, the response was less than enthusiastic. But we didn't give up. We went with what information we had in hopes that soon other organizations would

flock to our support, but no flock, not even a small covey, matter of fact it ended up as a scatter fragmentation of organizations and this turkey which I write every day. But we kept at it. To date, one accomplishment has been that our list of organizations has grown. This past summer we once again mailed our request for information to all organizations we had listed, over 100 of them, and the return...ten. For less than five minutes at any regular meeting, every organization in our community could have provided the Community School Office with a wealth of information which could have been used for a number of useful purposes, but once again, it just didn't happen.

But we have not given up. There are those faithful organizations who have been responding for the past several years, and to them, our thanks and gratitude. We still maintain, in the Community School Office, a Master Community Schedule which any organization or individual in our community is most welcome to seek information from. We are totally convinced that a community schedule can be of great benefit to our community, but like many projects, we need a higher percentage of involvement. Perhaps you could think of something.

Sincerely,  
Howard W. Taylor  
Community School Director

David Failing spent ten days here with his parents, Jim and Pat Failing. He returned last Sunday, Oct. 19, to Columbus, Ohio, where he is attending Ohio Institute of Technology. He called home to say that he had been named to the president's list with a perfect 4.0.

Mrs. Wilfred Ziegler has as her guest, her sister, Mrs. Geo. Stuart of Port Orange, Florida. Dorothy's husband, Dr. Stuart, recently passed away suddenly with a heart attack. Last week they were guests of Dr. and Mrs. Clayton Elliott of Lake Ann, Michigan.

#### Grayling Elementary School News

Mrs. Bovee's fifth grade class went on a field trip. We went to Millikin's. We saw a big machine. We got to climb up on piles and piles of rocks and collect them. There were all kinds of beautiful rocks. There were even limestones. We got a cup to put our rocks in. The cups were so loaded that it was hard coming back to the school.

Mrs. Fleming's fifth grade is taking balloons and covering them with newspaper and making masks out of them. It is called paper mache. Mrs. Bovee is also making them but instead they are making pumpkins out of them and hanging them up for Halloween.

Mr. Hayes has 56 students. They have been cutting off logs with a saw. They have been cutting them so they look like circles. The age is between 40-70 years old. They each have their own piece of wood. They cut out pictures and glue it on the rings with polyurethane.

Mrs. Yatch is saving Fun 'n Fitness stickers for new gym equipment. The students are saving coupons from Log Cabin,

Post cereals, Orange Plus and Awake.

#### Old-Fashioned Camera

On October 14, 1980, we took a picture of Mrs. McEvers' class. The camera was given to Aaron Ashton for a souvenir. Brett Brown helped Aaron Ashton take the picture. Mrs. McEvers' class was studying about the continents in Social Studies at the time we took the picture. Aaron's Grandma was sorting out things and came across the camera and so she gave it to him. **VOTE 'YES' ON TISCH**

California tried the same scare tactics to stop the Jarvis (Proposal "13") that they are now using to try to stop the Tisch (Proposal "D").

Nothing drastic happened in California. No necessary services were cut and because of the savings, California is not now in the trouble that they claim Michigan is in.

**VOTE 'YES' ON TISCH**

**PROPOSAL "D"**

Give it a chance to cut all your taxes.

Can't you spend your own dollars as wisely as the politicians!

**Remember: Government spending is the cause of inflation—Not you and I.**

In November 1976—When Proposal "C" tax cut was offered to Michigan the opponents lied so much that the Attorney General wrote and told them to cease and stop and threatened them with prosecution under "truth in advertising" legislation. Only then it was too late—the election was over and "C" was defeated. Now they're doing it again.

The Michigan Education Association alone spent \$221,000 to defeat Proposal "C"—and how much last time and now to defeat Tisch? Why? Why do they spend our tax dollars to stop us from saving?

**Sheriff Harold Hatfield**  
 (1973-1976)

**Sheriff Curt Haas**  
**"Undersheriff—Joe White"**  
 (1976-1980)

## EXPERIENCE

In November 1972 with over twenty years of law enforcement experience in Crawford County Harold Hatfield was elected Sheriff. After 3 years as Sheriff approximately 85% of the Sheriff's Deputies were certified by the State of Michigan as Police Officers, nearly 100% attended regular in-service training classes at no cost to the taxpayers.

## DEDICATED

After his defeat in the 1976 election Harold Hatfield continued to serve the people of Crawford County, returning to the Grayling City Police as a Patrolman. (Harold Hatfield was Chief of that department for 20 years.)

## RESULTS (Arrests & Convictions)

Crawford County Law Enforcement Agencies have solved, on a percentage basis, nearly twice as many crimes as the state-wide average. With an excellent prosecuting attorney and capable police officers, the criminal's chance of being caught and convicted in Crawford County was nearly twice as great as in almost any other area of the state. Yet with the exception of two C.E.T.A. employees there had not been an increase in department personnel.

49% OF ALL CRIME COMMITTED IN CRAWFORD COUNTY WERE SOLVED, COMPARED WITH THE STATEWIDE AVERAGE OF 31% AND THE NEXT BEST AVERAGE IN THE 8 COUNTY REGION 9, OF ONLY 29%. (October 15, 1957 report by the Northeast Regional Justice Advisory Council.)

## FISCAL RESPONSIBILITY

For 4 years as Sheriff of Crawford County Harold Hatfield kept a firm hand on his budget, cutting costs whenever possible. Assuring that the Sheriff's Dept. received its fair share of Federal money through grant application. Our tax dollars, being spent in other counties for their Law Enforcement were, due to Hatfield's initiative, being spent for Law Enforcement in Crawford County.

## ACCOMPLISHMENTS

- (1) Auxiliary deputies: In 1973 Hatfield started the Auxiliary Deputy Program. This division has contributed over 4,500 free hours to the department.
- (2) Intern Program: 9 Interns from Kirtland Community College have trained with the Sheriff's Department. They contributed many free hours of work.
- (3) Expanded Patrols: Up to 225,000 miles a year protecting you, your family and property.
- (4) Inservice Training: The officers have received 1,000 to 2,200 hours of training each year since 1973. Most of that training was on their off duty hours.
- (5) Prevention—Junior Deputy Program: In an effort to reduce the number of safety related accidents among our children, Hatfield created the Junior Deputy Program. The first program of its kind in northern

Michigan. Our children, in regular classroom instruction were being taught safety by deputies who volunteer their days off to teach bicycle, boating, first aid, snowmobile, and a variety of other safety related classes at no cost to the taxpayers.

The Crime Lab—With drug abuse on the rise, Hatfield formed the Crawford County Crime Lab. He was instrumental in the procuring of State and Federal Funds for its operations. It was no longer necessary to transport narcotic evidence all the way to Lansing for analysis. A yearly savings of thousands of dollars.

(6) Auxiliary Ambulance Division: In 1975 Hatfield formed the Auxiliary Ambulance Division. 160 free hours were donated by these trained ambulance personnel.

(7) Marine Program: 65% State Funded.

Snowmobile Program: 75% State Funded.

Sheriff Hatfield selected Deputy Tim Coe to head these programs. Patrols were expanded, safety courses and inspections were offered. With several officers assigned, it was possible to increase patrols of isolated areas. To inspect vacation homes in otherwise inaccessible areas of the County. The incidents of vandalism and breaking and entering were greatly reduced as were violations and misconduct on the waterways of Crawford County.

## RESPECT & ADMIRATION

In 1976 this letter was placed in the Crawford County Avalanche and was signed by over 95% of the Deputies. One of those signatures was that of the present Sheriff—Joe White.

### DEPUTIES SUPPORT HAROLD HATFIELD

For the last four years we've worked with Sheriff Hatfield on a DAILY BASIS.

We have found him to be an experienced, dedicated and honest law enforcement officer. His devotion to duty and policy of fair, equal and impartial law enforcement had gained him our respect and admiration.

With his leadership, this department has achieved more, in less than four years than any other time in its history.

Harold Hatfield's willingness to work and emphasis on Prevention First, Apprehension Second has made this County one of the safest counties in northern Michigan, in which to live.

One of Sheriff Hatfield's first orders to us, was that he was to be notified at any time, day or night, on any matter that was not considered routine. This has been done. Sheriff Hatfield has always been available, has taken charge immediately, whether it was 3 a.m. or 3 p.m., Sheriff Hatfield was there working.

**As Police Officers we cannot emphasize enough the importance of having a Sheriff who is BOTH an experienced Police Officer and an experienced administrator, willing to work!**

## EXPERIENCE

In November 1976 with 4 years experience as a full time Police Officer (Grayling City Police) Curt Haas was elected Sheriff. After 3 years as Crawford County Sheriff nearly 50% of the experienced officers had resigned. Those experienced officers are now employed by other departments.

## DEDICATION

Sheriff Curt Haas resigned after 3 years as Sheriff and took a position with an "Out of State" department.

## RESULTS (Arrests & Convictions)

Arrests and Convictions declined with each passing year. Yet the crime rate increased. Without an experienced Sheriff, high department morale and an effective prosecuting attorney it was difficult if not impossible to control crime in Crawford County.

## FISCAL RESPONSIBILITY

The Sheriff's budget runs about \$390,500.00—That's our tax dollars. Without administrative experience it is nearly impossible to manage that budget. The Sheriff must have the knowledge and the ability to work with and get along with the unionized deputies, County Commissioners and the taxpayers of this County. We can't help but wonder WHY from 1973-76 the deputies conceded many costly union demands when Harold Hatfield was Sheriff, donated thousands of hours of their off duty time to the protection and service of the people of Crawford County but now refuse to do so.

## CLOSING LETTER

On November 4, 1980 the voters of Crawford County will elect a Sheriff. We ask that before you vote you consider the facts we've given. Facts that are true and easily checked.

Your decision on November 4th is an important one for it involves the protection of you, your families and your property.

Whether you are a Democrat or a Republican, like or dislike a candidate will not make a difference if you or a member of your family needs help. Your vote could well decide whether or not that help is there with the ability and the experience to protect and to serve you.

Joe White is a fine officer—he is dedicated—but does he have the knowledge—the ability—to administer a large department?? Will he make the right decisions in a crisis situation?? Does he have the necessary experience to manage a budget of \$390,500.00??

Can we as Taxpayers afford to take that chance—again?

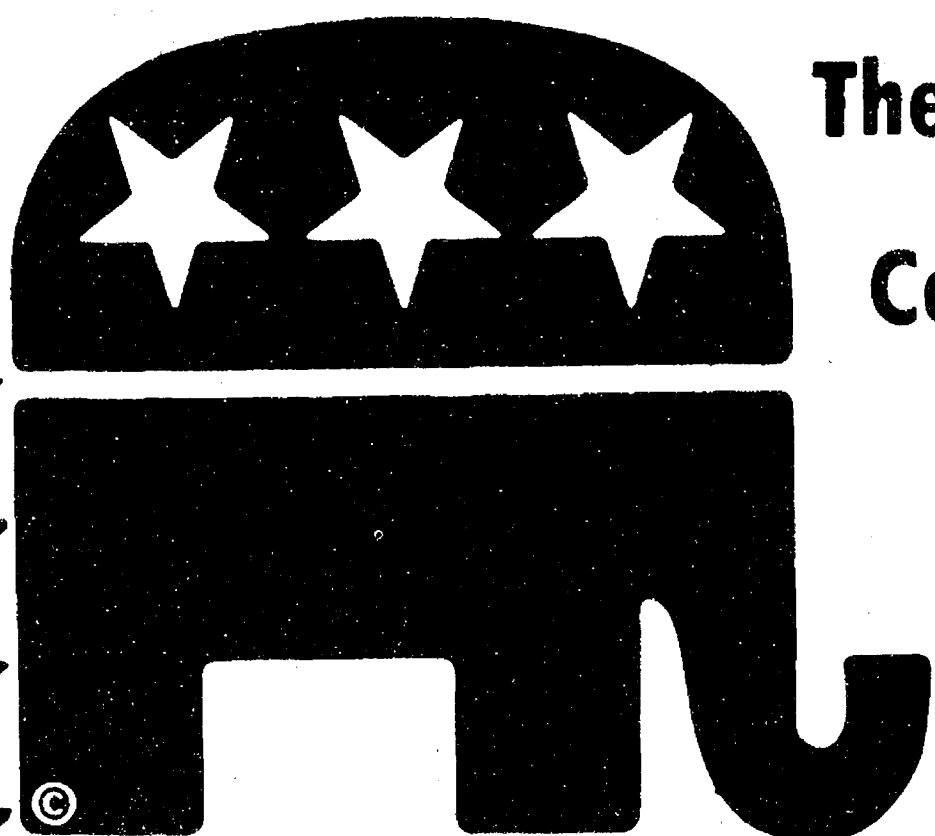

Harold Hatfield has devoted 27 years to Law Enforcement in Crawford County. He is a proven leader!! He can get the job done. There aren't any unanswered questions. Hatfield has the experience, the ability and just as importantly the desire to be our Sheriff.

On November 4th—Before you push that lever—ask yourself "Should I take that chance".

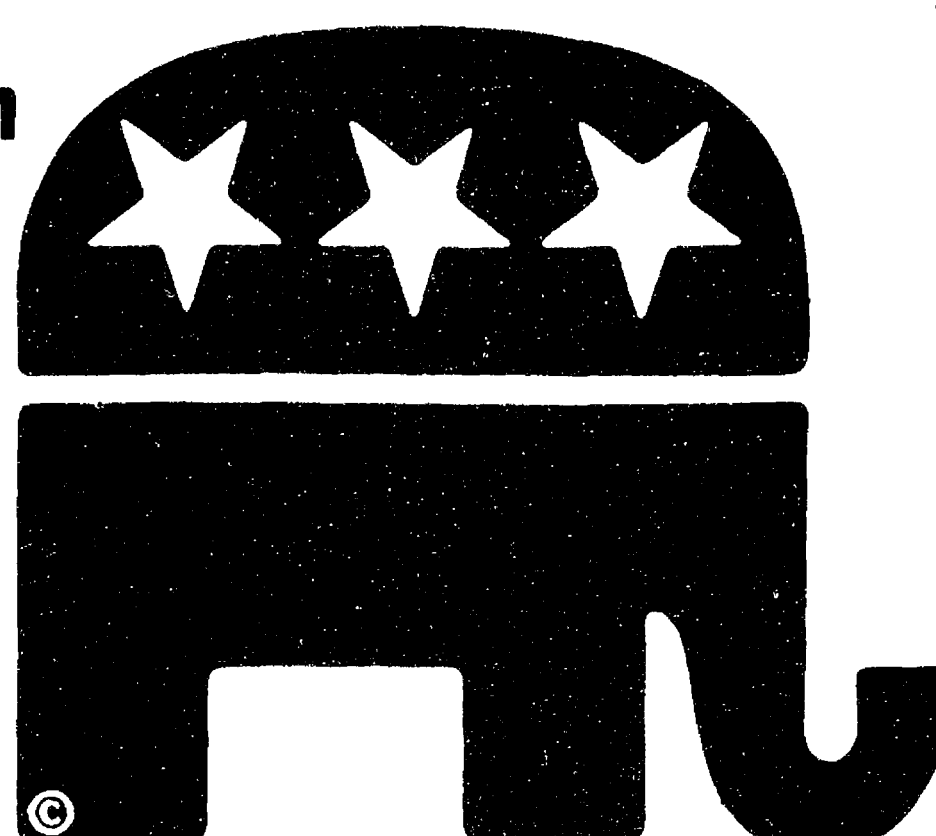

**Then please for**

### Hobby Shows

(Continued From Page 1)

should contact the Grayling Community School Office at 348-7641 for additional information and to have their name placed on the mailing list for the show.

As a new activity this year, the Grayling Community School Office will present a Hobby and Model Fair. This event will be held in the Grayling High School on Saturday, February 7, 1981.

The fair will be conducted somewhat like an agricultural fair with a wide range of hobby categories in which various age groups may enter. One of the larger of the categories will be one of models.

A small entry fee will be charged and cash awards will be made to the first and second place winners. Model builders are urged to begin work on their entries right away to make sure they will be finished in time for the fair.

There will also be categorical entries for adults in a wide variety of hobbies as well as a children's section. More information about the planned Hobby and Model Fair can be obtained by calling the Grayling Community School Office.

## Quick dollar fix can be problem

RICHARD MILLIMAN

TO KEEP UP with what's going on in your friendly state and local government in Michigan these days, you almost have to read The Wall Street Journal...or at least turn to the financial pages of your favorite hometown newspaper.

One recent news story is headlined: "Michigan to borrow \$100 million." On the next page is another news story telling how Wayne County is borrowing \$20 million to stave off another payless payday.

In both cases, a group of Michigan banks has come to the rescue of empty-pocketed governments. And who said bankers were hard-hearted?

The state borrowing was only for a few days, with \$100 million needed right now to pass out to local school districts; so the state found 10 friendly bankers to loan \$100 million at 9 percent interest for 13 days. The school districts received their October state aid payment on time, and everybody was happy.

Funds to repay the \$100 million could be accumulated from normal tax sources by the notes' due date, state officials figured; it's just that the schools' payments are due right away, and the state didn't have the cash on hand at the moment.

IN WAYNE COUNTY, two Detroit banks came to the rescue with \$20 million in loans, or, more precisely, "tax anticipation notes." The Wayne borrowing will be repaid by Jan. 31, 1981, from property tax collections due by then.

An official of one of the banks commented that his bank made the loan "as a civic gesture," but also considered the loan a sound investment at its 9 percent interest rate.

Wayne needed the money to meet its payroll on time. Before the borrowing, Wayne County had failed to meet its payroll on time for four weeks in a row, forcing employees to wait for their paychecks.

The new \$20 million infusion of cash, said Richard Kelley, chief county auditor, "is a definite load off our mind." I would think so.

RUNNING TO the bank to borrow

funds on a short-term basis to solve an immediate crisis is nothing new, either in private business or in government. Most small businesses (including those operated from time to time by the author of this essay) have resorted to the friendly banker on the corner for ready cash necessary for a quick financial fix.

School districts in Michigan peddle tax anticipation notes all the time, largely due to the vagaries of the budget year schedule; schools need money every month to stay in business, while their property tax collections generally come once each year. So borrowing is the answer.

Borrowing also can be a trap...again, as almost any small business which has used it to help out can testify. Borrowing can be a narcotic, and unless steps are taken to correct the situation which caused the borrowing in the first place, the borrower can become addicted and face total collapse when the loan-crutch is yanked out of place, as it inevitably must be, sooner or later.

IN WAYNE COUNTY, it appears to me the \$20 million payroll-meeting loan is dangerous for the county, no matter how necessary it is right at the moment. As I understand the situation from press reports, Wayne is borrowing from next year's revenue to meet this year's crisis. What happens next year?

In the state's case, the borrowing is less dangerous. After all, the loan is only for 13 days—and it's probably better to pay 9 percent interest for 13 days than throw all the state's school districts into a financial spin by withholding state aid payments for those 13 days.

But borrowing to pay any governmental obligation, even for less than two weeks, should be viewed as an early-warning signal. Something is wrong somewhere else in the total structure.

In the state's case, maybe the problem is simply the recession, and it's effects on the state's expected revenue collection; or maybe it's continual over-spending.

But something, somewhere, is out of kilter when the state must get together 10 banks to form a \$100 million pot to pay a series of obligations that are known, usual, scheduled and routine.

## Poaching is a Crime Against All of Us

Lansing—According to the dictionary, a poacher is a person who takes fish or game illegally.

But that doesn't tell the whole story. The poacher is a thief and always has been. He steals by taking game out of season, or over the limit, or by using illegal methods. He steals from everyone who has an interest in our natural heritage.

Still, there was a time, not so long ago, when the local poacher was something of a folk hero in many rural parts of the country. Most likely, this admiration was left over from the pioneer belief in self-reliance and independence.

Whatever the reason, the poacher was often viewed as a character whose steely nerve and woodcraft kept him always just beyond the reach of the wily warden. More conventional souls frequently treated the poacher with a mixture of respect and humor.

Fortunately, times are changing rapidly. Sportsmen are no longer very tolerant of the guy who hunts out of season, hogs game or violates hunting laws. Most hunters are aware of their role in conservation and scientific wildlife management.

We know that the poacher cares nothing for the future of the sport or the resource. And we know that the poacher acts as bad-will ambassador for hunting in general—he gives the non-hunting public a thoroughly nasty impression of what hunting is about.

We have also come to understand that the game warden—not the poacher—is the good guy. In fact, the warden is now often called what he really is—a conservation officer. He is the one who spends his life protecting wildlife, educating

people to the needs of conservation and restoring wildlife populations.

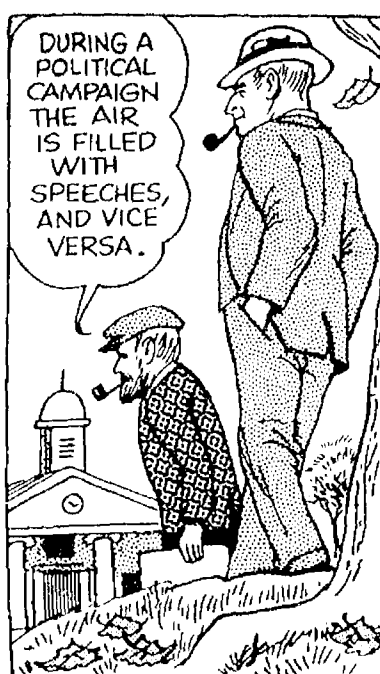

In short, we have recognized that we need the conservation officer, and he needs our help.

Judges who hear cases involving poachers are becoming increasingly stern. The slap on the wrist that used to be typical punishment for poaching is now likely to be something much more appropriate—like loss of gun, loss of car, a stiff fine, and maybe a jail sentence for good measure.

The situation has improved. But it can improve even more. The responsible hunter, like any other good citizen, has an obligation to report poaching, like any other crime. We really don't have any choice.

The poacher belongs to the past. The sport of hunting can't afford his kind in the present. He's no hero—just another kind of crook. Treat him accordingly.

## Mail Fraud Crackdown Intensified

Because the U.S. Postal Service touches all of our daily lives, you might think people would realize that swindlers use the mails to part us from our hard-earned dollars. Unfortunately, nothing could be more falsely assumed.

Con men have been using the mails for years to rip off millions of consumers. The Postal Inspection Service calls it mail fraud. This happens when someone sets up a scheme to defraud by misrepresenting the true facts and uses the mails to promote the scheme. According to Stephen D. Lokken, a Postal Inspector in Detroit, Michigan, the American consumer was cheated out of 489 million dollars last year through different mail fraud schemes which range from fraudulent land sales to charity racket and especially now, energy related fraud and home improvement swindles. It would be hard to tell how many people have purchased land in Arizona, donated to a phony charity, or bought a gas saving device believing that all were on the up and up, only to discover that promotions were fraudulent.

Just recently, a man was sentenced to several years in prison for advertising apartments for rent for \$400 per week in Lake Placid, New York

during the Winter Olympics. He required full payment in advance, but unfortunately for interested sports fans who sent their money in advance, he had no apartments.

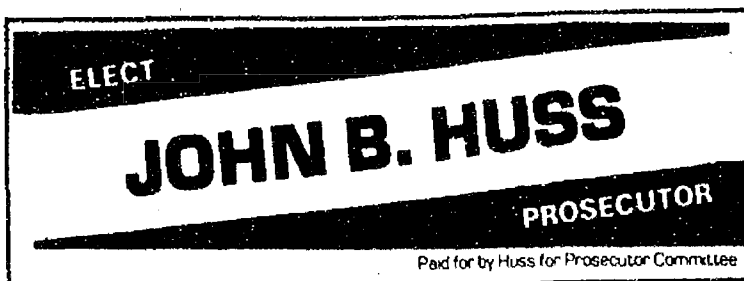

Or you may have been a victim of the Teltronics, Inc. watches by mail scheme in Chicago several years ago. Watches were advertised for \$16.95 with orders being promised before Christmas. The promoter collected 1.7 million dollars and tried to leave the country with a portion of the money, having no watches to send out to customers. He was convicted of mail fraud and sentenced to prison.

A question often asked is "What do Postal Inspectors have to do with all this?" Lokken says that the U.S. Postal Inspection Service is a major Federal law enforcement agency whose history dates back to the earliest days of America. Postal Inspectors are charged with protecting the

U.S. mail and investigating violations of all postal laws. The Mail Fraud Statute is one of these laws that affects many consumers.

As Consumer Protection Specialist for the Detroit Division, which encompasses Michigan and Indiana, except for Lake County, Indiana, Lokken has spent the past year speaking to consumer, service, and senior citizen groups and has been interviewed on radio and television informing people about the various mail fraud schemes and how to avoid becoming victimized.

If you believe you have been victimized by a mail fraud scheme, contact your local postmaster who will forward the information to the Postal Inspection Service. Whether it's chain letters, work at home schemes, or someone trying to sell you the Brooklyn Bridge through the mail, Postal Inspectors are hard at work investigating fraud.

**You can't afford to have this proposal pass! It would mean:**

- You will lose deductions on your federal income tax returns, and the extra tax dollars you send to Washington will be returned to other states, not Michigan.
- If you're a senior citizen, you will lose one dollar of rebate for every dollar of property tax reduction.
- If you want to send your kids to college, you will find that tuition at state universities is doubled or tripled.
- If you rent, you won't get any break because of the property tax reduction your landlord receives.
- Existing circuit breaker property tax rebates will be cut.
- Vital state services will be slashed. Even if voters wanted these services back, they could not be restored for two years.
- State government will be run by a minority.

## Kirtland To Present Play

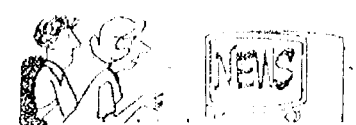

This year's Fall play at Kirtland Community College, promises to be an exciting one. "It's a Bird, It's a Plane, It's Superman," will be presented on November 14, 15, 21, 22 at 8:00 p.m. in the Kirtland Auditorium. The phone booth honors will be going to Cary Vajda of Higgins Lake, who will play Superman and his alias Clark Kent.

Many other familiar characters will appear as well. The production is reminiscent of the old comic book and television series, and will include the infamous characters of Lois Lane and Perry White, as well as an array of villains.

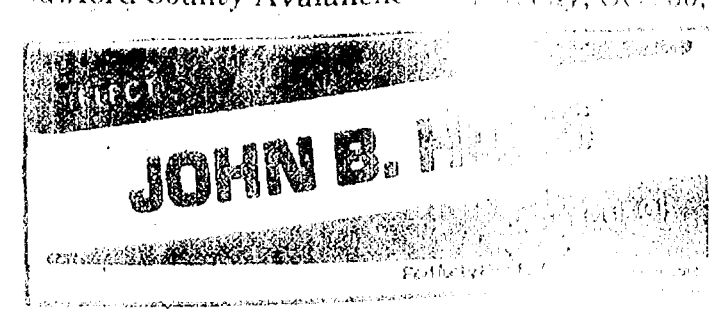

The story "It's a Bird, It's a Plane, It's Superman," depicts Superman in his famous image, doing all the things that only Superman can do. In his daily routine of crime prevention, foiling bank robbers, and flying through the sky, Superman saves the life of Lois Lane several times. Trivial things like this eventually become the least of his worries as the tasks get bigger and better.

A nuclear reactor is running out of control, and will eventually have a meltdown of something isn't done to stop it. Everything has been tried, everything except Superman! So Superman saves the day by making the dangerous repairs to the reactor exposing himself to a lethal amount of radiation. Who else could have done that but Superman? After all, he's indestructible!

"LIGHT UP A LIFE" to "Bring 'em Back Alive!" is the Halloween safety message this scary skeleton is spreading with a flashlight, grinning Jack-o-Lantern and highly visible face makeup. Automobile Club of Michigan urges parents to equip young trick-or-treaters with flashlights to light their way and make them more visible to motorists Halloween night. The stark white makeup and gloves on Auto Club employee Angela Palmeri represent the correct way to dress for trick-or-treating. Without those safety features, her black costume would make her nearly impossible to see in darkness. Other safety tips: stay away from masks and use makeup; keep costumes short enough so they won't trip tiny feet; make costumes of bright colors and apply luminescent paint or tape to make them even more visible, and caution children to cross only at intersections and to look both ways before stepping off the curb.

Dear Editor,  
Regarding Carter's most recent campaign proclamation, "If I lose the election, black may be separated from white, North from South and Jew from Christian."

I have one comment to make: intemperance in the defense of incompetence is no virtue. Not only that, Mr. President, it won't earn you any votes!

### NOTICE

I will be running for the office of County Commissioner District 7, Beaver Creek and South Branch Townships. I lost the Democratic race in the primary by 16 votes and I feel the difference was not large enough to indicate the peoples choice. I will be handing out stickers at the polls on election day.

I work for General Telephone Company from 8:00 a.m. to 5:00 p.m., Monday through Friday. My Democratic opposition has stated that I would not have time to fulfill the position properly.

General Telephone does allow time off from work for such positions and this is their statement of policy which is contrary to his opinion. "It is the policy of General Telephone Company of Michigan to encourage responsible individual citizenship on the part of all employees. The employee's active participation in community affairs, contributes to the community, strengthens and promotes the principle of citizen participation as a mainstay of the democratic process, the fulfillment of these objectives serves the best interest of the community and therefore of the company."

To run on stickers is hard, I need a lot of support. Please stop and pick up your sticker from the persons handing them out 100 feet away from the township halls.

I am a hard worker and it is time to get some work done on the county level. I know it is time for a change and I also know I can make those changes.

## "Birthday" Licensing Starts November 1st

Michigan's year-round "birthday" vehicle licensing program doesn't start officially until November 1, but applications are already being received and tabs sold to the first of some 7-million vehicle owners.

Motorists who own personal vehicles and whose birthdays fall in November have been getting prepared license plate applications. And according to Secretary of State Richard H. Austin, some "enthusiastic person have already ordered or obtained their new tabs."

Mailings will continue throughout the year...an average of nearly 600,000 a month.

Owners whose vehicles come under the staggered system...about 95 percent of the owners of vehicles in Michigan...are mailed applications 45 days prior to their birthdays to give them ample time to either order by mail or get to a Secretary of State branch office to obtain their new year tab for the current registration, Austin said.

Persons ordering by mail should return their applications at least 14 days before their birthdays, Austin reminded. All new tabs...year tabs since the monthly tabs remain the same...must be displayed on or before the date of the owner's birthday.

After the phase-in period last year when persons renewed for varying lengths of time, the current registration is for the customary 12 months.

All individually owned passenger vehicles, pickup trucks and vans are on the new year-round birthday schedule.

Some vehicles will not be affected by the new program, Austin said. These are commercially-owned vehicles, motorcycles, and vehicles with dealer, ham operator and personalized license plates. Commercial and commercially-owned trailers come due on the regular deadline of the end of February, while the others will expire March 31.

All vehicle owners are urged to read and follow the instructions on the prepared license application envelopes. Fees are listed on the applications.

Motorists with any questions should contact a Secretary of State branch office, Austin noted. Prepared applications have a return address envelope for the convenience of persons who wish to use the mail for renewing their registrations.

"Renewing by mail is still the easiest method," Austin asserted. "All the vehicle owner has to do is to sign the back of the prepared application, put in a check or money order for the proper amount, and use the handy return envelope."

While citing the convenience of the mail program, Austin said that obtaining tabs at Secretary of State branch offices had advantages also.

"The foremost advantage, naturally, is being able to get your tab on the spot without having to wait," Austin declared. "And there will not be the problem of the long lines of years past because of the year-round system."

The current registration will consist of one sticker tab good for 12 months from the person's birthday deadline. This tab should be placed right over the present year tab on the lower right section of the rear license plate.

The new system will spread registrations through the entire year, avoid the inconvenience of the past when last-minute rush periods caused long, frustrating lines and other problems, and reduce the cost of staffing personnel for rush periods.

"It will help improve service and accuracy while reducing cost because the inflow of registrations will not hit all at once," Austin said.

Another advantage is that in the years when an owner's driver license also expires, the motorist can now conveniently renew both his driver license and obtain his plate registration at the same time at any branch office of the Secretary of State.

Austin encouraged the use of the prepared application forms whether renewal is at a branch office or obtained by mail.

"They are easier for owners who merely check the information and sign the reverse side. They save time in branches and are more easily handled by our central computer system in Lansing. All these add up to money savings."

### La Leche League Meeting Notice

"Nutrition and Weaning" will be the topic for discussion at the November meeting of Roscommon La Leche League. The meeting will be held on Thursday, November 6 at 7:30 p.m. at 6831 Rhodes Rd., Houghton Lake. This is the last meeting of this series; a new series will begin in December in Prudenville.

It is now recognized that mother's milk is the best food for baby. La Leche League believes that in addition to being good nutrition, breastfeeding gives the baby the best start in living.

The discussion will include suggestions about nutrition for nursing mothers and their families, as well as information about weaning the breastfed baby.

Expectant mothers are encouraged to attend the series of meetings before the baby arrives. Nursing babies are always welcome. For further information, or for breastfeeding help, call Carolyn Crist at 275-8431.

# CONGRESSMAN BOB DAVIS

The walls in Congressman Bob Davis' office are covered with plaques from national organizations honoring him for what he has done. Davis is proud of those awards.

But the memento he's most proud of hangs on a separate wall all by itself. It's a collection of letters from constituents, letters thanking Congressman Davis for his help with their individual problems. To some, the problems might seem small — a lost Social Security check or a mix-up with the Veterans Administration.

But to Bob Davis, those individual problems are important. That's why he's so proud of all those thank you letters.

# Voters of Crawford Co.

I have been asked why I think that I'm a good administrator. Well for one thing when I was Sheriff I had no undersheriff. The money that would have paid for an undersheriff put a Deputy on the road. I was told, that by law I had to have an undersheriff and I appointed one in name only. That seemed to take care of the law and with no extra cost to the County.

Of the last 4 sheriffs (elected or appointed) I have been the only one who did not have a paid, full time undersheriff. My intentions at this time are to have an undersheriff in name only. The \$16,694.00 that is paid to the undersheriff would pay the wages of an investigator, which this County is in need of, then maybe we could cut down on some of the breaking and enterings and other crimes.

There are several officers in the Crawford County Sheriff's Dept. that are qualified for such a position. One of the officers, a while back had worked in this position for about a year and did an excellent job. In that year he investigated 115 felony complaints, resulting in 78 felony arrests (warrants) and recovered about \$82,000.00 in stolen property.

I feel that if the sheriff is doing his job of running the department there is no need for an undersheriff or vice-versa. This is not to say that we have not had some fine undersheriffs but is there a need for both in this County?

Perhaps some law has been passed in the last 3½ years that calls for a full time certified undersheriff but I doubt it. In any case, should I have to have a working undersheriff I would try to work out a plan with the union to use him as a Command Road Deputy and let him join the union. No extra cost for an undersheriff. Too often there is too much office brass.

My intention is to re-vamp the marine patrol, to try and meet the needs of the lake and river residents. While the marines are basically Water Safety Officers, they can be transfered to the regular fund to investigate complaints or if certified, to make an arrest.

YOUR SUPPORT WILL BE APPRECIATED  
ON NOVEMBER 4TH

Respectfully

# Harold

## Candidate for Sheriff

PD. FOR BY THE CANDIDATE

I would like to revive two programs I had when I was Sheriff.

(1) I started the program where the trusty (inmate) does volunteer work in the community. Such as painting and cleaning in the City Park. Picking up trash, cans and bottles in the alleys, some of the streets and along the railroad tracks, also helping the janitors at the Court House. In this way, they earn extra good time from their sentence. (And the taxpayer receives a little something back for some of his tax dollars.)

These are jobs which there is no money for or no one to do it. This program was tailored for the City of Grayling only because there was no transportation involved.

(2) Inmate Work Pass Program. While this program was in operation when I took office, I expanded it. In the last couple of years there has been very few if any inmates out on work pass. Normally this is a program for inmates serving 3 to 12 months in the County Jail. After an inmate has served a reasonable amount of time and his behavior is good, he is made a trusty. The last 1/3 to 1/2 of his sentence he is allowed to have a work pass.

In this way he can earn money for his personal needs and pay his court cost and fine. He must reimburse the County the cost of his board, for every day he works. Both programs are voluntary on the inmates part and must be earned by good conduct while in jail. It is one way that the taxpayer gets a little break on jail expense.

You must realize these programs are not for every inmate.

Both the District and Circuit Court Judges approved of the programs in the past.

About the only thing I can say about the recent articles in the Bay City Times and the Crawford County Avalanche, pertaining to the lawsuit against myself and others, by the U.A.W. is—

(1) That it seems strange that it should come up 4 years later, and just before the General Election. (Once Again.)

(2) That I never had my day in Court.

(3) That it is a sad day when a couple of lawyers, a judge and an insurance company can come to such an agreement with complete disregard for all parties involved.

I know that the articles will hurt my chances to be elected. I ask the voters to remember that the article read "That there be no acknowledgement of wrong doing by either plaintiffs or defendants".

HIDING  
IN THE  
LEAVES

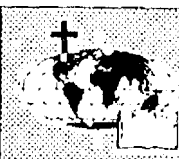

One of the adventures of Autumn is hiding in a pile of leaves. Not really hiding, though. The fun is in poking your head out and surprising someone!

When we're growing up, every season brings its adventures. Our days are full of opportunities for having fun.

Hopefully those days will also be marked by adventures that help build character. With each passing season the soul as well as the body needs to grow.

The opportunity for youngsters whose families are concerned for their spiritual development is in religious education.

We don't belong under the debris of Fall — our convictions are the heralds of a new Spring.

Lynn Carol Kolka, daughter of Mr. and Mrs. James Kolka became the bride of Ronald E. Donoghue, son of Mrs. Eleanor Donoghue and the late John Donoghue of Saginaw, on Saturday, September 27, 1980 at four o'clock p.m. Rev. Paul Weber of Mt. Hope Lutheran Church officiated before about 225 guests.

Yellow and white glads, carnations, daisies and greens provided the decor for the church and reception.

Mrs. Candy Weber was soloist and Mrs. Carol Schrader was the organist. Special music consisted of "Wedding Song", "Children of the Heavenly Father", "Beautiful Saviour" and the "Lord's Prayer".

Lynn Carol approached the altar on the arm of her father in a white polyester gown with chapel length train. A blouson bodice attached at waist featured a lace trimmed yoke. Her fingertip length veil of bridal illusion included lace applique trim and matched the lace on her gown. She carried a cascade bouquet of six white cymbidium orchids, stephanotis and ivy on a white

Bible borrowed from her aunt.

Mrs. Nancy Hatfield, sister of the bride was matron of honor. Mrs. Lenore McNaughton, sister of the groom, Miss Sheri Linendoll and Mrs. Linda Weatherford were bridesmaids. Misses Anne & Mari McNaughton were junior bridesmaids & flower girl. All attendants wore blue or yellow gowns and carried yellow and white arm bouquets.

Rev. David Weber as best man. Groomsmen included Wayne McNaughton, Carl Schwanbeck and Steven Weatherford. Kurt Kolka, James Hatfield Jr., Tom Lich and Tim Hales served as ushers. Mitchell Linendoll passed out programs.

Mrs. Kolka chose an aqua blue lace gown for her daughter's wedding. Mrs. Donoghue chose a navy blue gown for the marriage of her son. Their corsages were of white orchids.

The couple greeted guests at the Officer's Club at Camp Grayling for dinner and dancing.

Following a trip to the Pocono Mountains of Pennsylvania the couple are residing in Saginaw.

Now, more than ever, we need an Experienced and Aggressive Prosecutor who will get into the court room and do the job for which he is elected.

**How long can we pay the price of a soaring crime rate by giving criminals "a break" to save court costs?**

**LET'S LOOK AT THE RECORD**  
**COMPARING 1972 through 1976 (when JOHN B. HUSS WAS Prosecutor), to the past 3½ years:**

**Plea Bargaining Has More Than Doubled**

to the point that more than 85% of the Felons charged are allowed to plead to a lesser offense or have their cases dismissed. (According to Circuit Court Records.)

**The Felony Crime Rate Has More Than Doubled**

(in comparing the average number of Felonies committed per year from 1972 through 1976, with those committed per year from 1977 through 1979).

- Felony assaults are up ..... 171%**
  - Breaking & Entering is up ..... 30%**
  - Auto Thefts are up ..... 150%**
  - Armed Robbery is up ..... 400%**
  - (Felony) Larcenies are up ..... 16%**
  - Sex offenses are up ..... 175%**
- (According to Crawford County Sheriff Department figures.)

**THE COST ???**

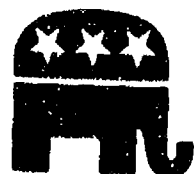

For the past 3½ years WHOLESale PLEA BARGAINING has resulted in A SOARING CRIME RATE!!

**THE PRICE !!**

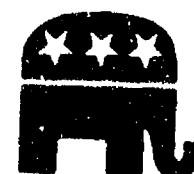

**YOUR SAFETY !!! YOUR SECURITY !!! YOUR COMMUNITY !!!**

**IT'S TIME TO RETURN A PROSECUTOR TO THE PROSECUTING ATTORNEY'S OFFICE . . . .**
